

Better Packages, Inc. Testimonial

Eagle Magnetic Company, Inc.

Precision Sheet Metal Manufacturer

Better Pack 333 Plus dispensers are designed for dependable, straightforward dispensing in areas where electricity is not available.

Testimonial provided by:

Jim Wilson,
Shipping Manager

“We make and ship many unique metal parts all over the world. We have parts in all the space shuttles, navy ships, Indy race cars, and Air Force planes.

We have been using Better Packages tape dispensers for about 20 years and have only had one problem with a spring, and it was a quick easy fix. These machines are very easy to use and clean and adjust. I would recommend them to everyone. We use them all day long in our shipping department. I liked our first one so much, we bought another a few years later. Still no problems.”

The Better Pack 333 Plus has been a mainstay in the shipping area of this sheet metal manufacturer for 20 years. And during that time, they’ve cleaned it regularly and needed to replace only one spring for reliable, consistent dispensing!
