Better Packages' product quality and superior level of product support is unmatched in the industry

“When I contacted Better Packages' customer service department, I was more than pleased to find that your company still supports a 35-year-old Better Pack 555S with parts diagrams and operators manuals. You don't find that level of support in many companies these days.”

“A 35-year-old machine that still works is a testament to the quality of your products”
