

Better Packages Water-Activated Tape Case Sealers

# BP Sealmaster® **3000** CS

Semi-Automatic, Uniform Case Sealer

The Sealmaster 3000 CS is designed to incorporate automation with reinforced and non-reinforced water-activated tape for a strong, secure seal. Maximized productivity and enhanced carton security is delivered by this semi-automatic case sealer when sealing fixed sized cartons. Built to adapt and perform in high-volume packaging environments, the Sealmaster 3000 CS is manually fed to simultaneously seal the top and/or bottom of the carton optimizing your output.

## Better Packages Water-Activated Tape Case Sealers

# BP Sealmaster® **3000** CS

## Efficient and Secure...Consistent Operation

- Strong side drive belts convey 15 cartons per minute and support carton in upright position
- Greater efficiency and less tape changeover downtime with 3,000 foot rolls of BetterSeal Secure® tape
- Floating urethane rollers ensure a professional-looking, secure seal
- Simultaneous top and bottom carton sealing with optional adjustment to seal top or bottom only
- Top and bottom heads can be loaded with different widths of tape
- Operator-friendly manual adjustments can be made quickly and easily to accommodate various size carton runs
- Adjustable feet for achieving optimal height for easy operation

### Unique Options for Enhanced Performance

Available with the patent-pending BP E-Z Pull Tab® System that applies BP E-Z Pull Tab tear strip to the center of the WAT on the upper seal. BP E-Z Pull Tab tear strip is the ideal solution where costly damaged product returns, high worker comp claims and brand image are challenged. A seal with BP E-Z Pull Tab tape offers a safe and secure means of opening a carton without the need for a box cutter or sharp object.

### Additional Options

- 4 wheels for ease of transport within the packaging facility (2 wheels with brakes)
- Entry and exit conveyor extensions
